New Clarin Bansalan Davao del Sur

About Me:

BSIT student with hands-on experience in Laravel, PHP, JavaScript, and MySQL, developing systems such as online queueing, enrollment, and smart home control. Passionate about building practical, user-focused web and mobile applications and eager to apply skills in a real-world development or IT support environment.

Educational Background

2022 - 2026

Bachelor of Science in Information Technology

St.mary's College Of Bansalan Inc.

KEY SKILLS

- Laravel / PHP web development
- JavaScript, React, and basic mobile development (React Native / Flutter)
- MySQL database design and queries
- Git/GitHub and VS Code for development workflow

Work Experience

2025 | Student Queueing System – Laravel Developer

Developed an online student queueing system using Laravel and MySQL, implementing queue logic, role-based access, and staff notifications

2026 | Smart Home Light Control – Arduino Project

Created an app-based smart home lighting system with on/off, color control, brightness, and scheduling, integrating mobile UI with embedded hardware
